

Winter Workshops

Enamel a Photo Image

Acquire the skills to create a beautiful enameled portrait using the painterly technique of Grisaille enameling. We will demystify the process. By applying only white enamel your image will come to life through the gradual development of numerous grey tones. Experimental methods will also be covered. Taught by Alison Warren, BFA, Enamellist and Metalsmith

Jan 14, 9-4, Jan 15, 10-3
Cost: \$125, Materials \$15

Cloisonne' Jewelry

Learn to create a piece of cloisonné enameled jewelry that integrates color, shading and depth. Cloisonne' is the process in which metal wires are bent to form a design; enamel is then inlaid into the resulting cells or "cloisons". We will work with fine silver and transparent enamels. Special shading tricks and the use of foils under the enamel will also be demonstrated. Taught by **Maya Madden** cloisonne' artist and jewelry maker from **No Rules Jewelry**

Jan 21, 9-4, Jan 22, 10-3
Cost: \$125, Materials \$15

Make a Bezel, Set a Stone

Bring a non-faceted stone or object such as a fused glass or enameled piece, you name it to this workshop and make a bezel setting, solder it in place and set your materials in the setting you create.

Jan. 28 9-4
Cost: \$90, Materials \$10

Ring Making 101

With or without stones, learn to fit, finish and make a silver ring in a careful step-by-step approach. Learn how to texture a band in various ways, oxidize or polish. Different styles of rings will be demonstrated.

Sign up for both stone setting and ring making to create a ring with a stone or enamel or whatever you fancy. Both workshops taught by **Wayne Farra**, master metalsmith with over 30 yrs. of experience.
